

ONPOINT IMAGE LIBRARY

THUMBNAILS AND BADGES

JANUARY 2016

OVERVIEW

This library includes images of OnPoint's standard Thumbnails and Badges.

Thumbnails are commonly 150x200 pixels in size. The examples shown are the type of thumbnails meant to indicate the content type of the associated item (e.g. video, PPT, audio). Alternatively, you may choose to create images that indicate the subject matter of the content item, such as an image frame from a video asset. Thumbnails can include text as well, in use cases where you are indicating the company producing the content (e.g. SkillSoft) or maybe a department (e.g. HR), though this should be minimal due to the small amount of space available.

Badges are designed to be shown at a size of 200x200 or 400x400 pixels. These are indicative of a reward or celebration for an action.

The contents of this library is organized in 2 sections.

Thumbnails	Badges
