

## OnPoint Release 5.2

### June 2013 Release Notes

E=Enhancement

B=Bug Fix

Course Manager (OPCM)				
Location/Functional Area	Type	Summary	Details	ID #
Root Only	E	New mobile language file	Creation of Mobile UI language file - Enables language support in CellCast custom UIs	6614
OnPoint Root	E	New device support for BB10	Add support for BB10 mobile device type to mobile devices table and support in OPMGW to match	6651
Users & Groups - Users	B	New "Clear" login attempts button	New "Clear" button in user profile allows Admin to reset failed login attempts back to zero	7327
Users & Groups - Users - Mobile Profile	B	Correction to QR code image	Creation of new registration code with QR shows QR image for previous reg code; corrected	6833
User & Groups - Users	E	New link for assigning shared device group	Added Assign link to allow authors to assign users to shared device group from User Memberships tab versus having to go to the Shared Device Groups assignments tab	6477
User & Groups - Users - Assignments	E	Reset assign date when recertifying	Recertify of assignment should reset assigned date of object to the date of recertification; when you recertify, the date is now updated to reflect the date of the recertification assignment	6547
Users & Groups - Users	E	Restrict language selections to those assigned to the slice	User record should only show those languages assigned to the slice as available languages when selecting a user's preferred language	6748
Users & Groups - Users - Mobile	B	Send registration codes to active group members only	Group registration codes should not send registration codes to inactive members of groups	6550
Users & Groups - Users - Assignments	E	Archive Assessment Sets	Added archive function to Assessment Sets in user assignments area	6588
Content	E	"Office" files supported	Added support for sending office style asset extensions to devices	6954
Content - Assets	E	Improve "Copy as" for Link asset	"Copy as" of multi file asset (Link) should make a copy of the associated sub-directory - it creates an exact copy of the asset and of the asset subdirectory allowing editing to occur independently of the original asset	6328
Content	B	IE dropdown selection for thumbnails	Dropdown to edit the default thumbnail in Internet Explorer (IE) only	7405
Content	E!	New Deep link URL string for content	Enabled Deep linking to launch a Course or Nugget from outside OnPoint, see How To guide: "Deep Links"	6605
Content - Courses - Versions	E	Improved Course versioning	When the version of a course is changed, the display was not showing the updated date, just the updated time; corrected	6570
Content - Wizards	B	Course wizards error	Course wizard (non-scorm) is deleting .js files from content that is uploaded	7419
Content & Users & Groups	B	Problem with 'Enter' in filters	Hitting Enter while cursor is in Filter field causes new object creation to come up	4556
Content - Wizards	B	Character limits for wizards	All Wizards should limit titles to 100 characters and truncate the title if 100 characters is exceeded	6191
Content - Wizards	E	SCORM Course wizard error checking	Improper scorm courses now provide error to indicate to customer if the scorm was invalid	6195
Content - Wizards	B	Wizards creating thumbnails incorrectly	Course and Nugget Wizards were incorrectly placing thumbnails in the wrong directory; corrected	6832
Assessments - Tests	E	Denote online only functions	Added visual indicators on page to designate online only functions (including allowed restarts, background, test lockout, test timer, and sequence test question types)	6276

Location/Functional Area	Type	Summary	Details	ID #
Assessments - Questions	B	Corrected question update issue	Update of question was updating the "created by" name when it should not have been	7415
Assessments	B	Corrected typo	Typo in OPCM - Assessment Set Assign; corrected	6822
Assessments	E	Auto archive for Assessment Sets	Add Auto Archive function to Assessment Sets as it currently exists for Nuggets and Coures	6292
Assessments	E	Remove mobile related note for LMS only customers	If customer is not mobile - do not show 'not in mobile' icon and note	6961
Skills & Games - Games	B	Game edit causing end date loss	Editing a game causes loss of end date; corrected	7406
Skills & Games - Games	E	New game version value	Games now have a published version value that can be used to alert mobile apps of updates	6511
Skills & Games - Games	E	New "Copy as" function for Games	Added "Copy as" functionality to games to allow easy creation of new games that have some or all of the components of the existing game	6519
Skills & Games - Games	B	Game editing caused two status fields	Add or edit game shows two status fields; corrected	6574
Skills & Games - Games	E	New 'Request Delete' status condnion for Games	Games now have a Request Delete status and final deletion process	6575
Skills & Games - Games	B	Game completion improvement	Game completion is now based on finishing all items in the game successfully rather than earning all possible points	6796
Skills & Games - Games - Triggers	B	Fixed Trigger dropdown in Games for IE	On the Triggers tab in a game in IE, you have to select the Trigger Action drop-down twice to see the options; corrected	6579
Skill & Games - Games	B	Update Gamestream display order	Gamestream was corrected to load most recent 10 items rather than oldest 10 items	6901
Skill & Games - Games	B	Update Gamestream titles	Gamestream does not properly show title for Game Completion objectives; corrected	6903
Skill & Games - Games	B	Update Game Stream titles	Activity Stream should show 'Achievement' and not 'Objective'; corrected	6904
Skill & Games - Skill Profiles	E	New tip detail for Skill Profile updates	Add instructional text to skill profile assignment page regarding update status	6953
Skills & Games - Games	E	Allow 0 point item in a Game	Allow for points awarded in game to be 0 for an item in a game. This allows for the inclusion of an item in a game without a corresponding point value, but only when the zero point item is either a Skill Profile itself or associated with one	7193
Skills & Games - Games	B	Support for Events within a Skill Profile within a Game	Corrected the ability to add ILT Events to a Game via a Skill Profile	7267
Events - Master Calendar	B	Clearing event master calendar	Clear broom does not clear Resources in Event Master Calendar; corrected	6265
